

EYPP Provision for Flatts Nursery School 2020-2021

Allocation for academic year 2020-21

- Summer Term 2020 £2385
- Autumn Term 2020 - £TBC
- Spring Term 2021 - £TBC

At Flatts each term once the children who attract this premium have been identified the funding is used to provide extra staffing to work closely in small groups or on a 1:1 basis with the children concerned focussed on what the child needs to enable them to reach a good level of development.

The steps we follow to ensure we are using the funding efficiently are as follows

1. Identify the needs of eligible children, using their assessment data based on professional judgement and observations in collaboration with any information from outside agencies or parents.
2. Focus on the areas of learning with the highest need, starting with the prime areas and then moving on to Literacy and Maths
3. Member of staff to work specifically with individual children and small groups planned for their specific next steps. This may be individually or in small groups where a shared focus has been identified. This work will take place as activities within the provision.
4. Measure the impact to feed into the next cycle.

This year tracking will be live using the EExAT assessment package to allow for impact of extra support. Each term the impact will be measured to ensure work completed is effective in improving life chances for our children. The online journal will allow next steps to be communicated to parents (at a time when coming into school is restricted) and allow parents to contribute what they have observed at home.

Idea for EYPP funding	Costings	Monitoring of impact
Summer Term 2020	$\text{£}2385 = 25 \text{ eligible children}$ $13.25 \text{ hours per week} \times 12 \text{ weeks} = 159 \text{ hours}$ $159 \text{ hours} \times \text{£}15.03 = \text{£}2389.77$	<p>The bespoke planning and targeted next step planning had a positive impact on this group with 94% making above typical progress up to March 20. This was 10% higher than the remaining cohort.</p> <p>This work did not continue past March due to Lockdown and very small numbers attending in Summer 2020. Families were contacted and supported by key workers, activities were on the website. Children who</p>

		did attend had high levels of staffing to enable 1 to 1 and small group work to take place. The focus was on the prime areas, with specific focus on PSED.
Autumn Term 2020	<p>Although open to all families from June 1st – very few attended. From September we have extra support for 3 hours of PP support over 4 days (12 hours per week).</p> <p>£ TBC = eligible children</p> <p>12 hours per week x 14 weeks = 168 hours</p> <p>£15.03 = £2525</p>
