1. Aims

This policy aims to ensure that:

- › Intimate care is carried out properly by staff, in line with any agreed plans
- › The dignity, rights and wellbeing of every child are safeguarded
- › Pupils who require intimate care are not discriminated against, in line with the Equality Act 2010
- › Parents/carers are assured that staff are knowledgeable about intimate care and that the needs of their child are taken into account
- › Staff carrying out intimate care work do so within guidelines (i.e. health and safety, manual handling, safeguarding protocols awareness) that protect themselves and the children involved

Intimate care refers to any care that involves toileting, washing, changing, touching or carrying out an invasive procedure to children's intimate personal areas.

2. Legislation and statutory guidance

This policy complies with [statutory safeguarding guidance](#).

3. Role of parents/carers

3.1 Seeking parental permission

Due to the age range of the school all parents are asked to give written consent for their child to receive any necessary intimate care, this is part of the school consent form.

For children whose needs are more complex or who need particular support outside of age appropriate intimate care, an appropriate plan will be completed in discussion with parents/carers (intimate care plan, health care plan, medication form).

Where there isn't an intimate care plan or parental consent for routine care in place, parental permission will be sought before performing any intimate care procedure.

If the school is unable to get in touch with parents/carers and an intimate care procedure urgently needs to be carried out, the procedure will be carried out to ensure the child is comfortable, and the school will inform parents/carers afterwards.

3.2 Creating an intimate care plan

Where an intimate care plan is required, it will be agreed in discussion between the school, parents/carers, the child (where possible) and any relevant health professionals.

The school will work with parents/carers and take their preferences on board to make the process of intimate care as comfortable as possible, dealing with needs sensitively and appropriately.

Subject to their age and understanding, the preferences of the child will also be taken into account. If there's doubt whether the child is able to make an informed choice, their parents/carers will be consulted.

The plan will be reviewed twice a year, even if no changes are necessary, and updated regularly, as well as whenever there are changes to a pupil's needs.

See appendix 1 for a blank template plan to see what this will cover.

3.3 Sharing information

The school will share information with parents/carers as needed to ensure a consistent approach. It will expect parents/carers to also share relevant information regarding any intimate matters as needed.

4. Role of staff

4.1 Which staff will be responsible

Headteacher, Teachers, Senior Early Years Practitioners, Early Years Practitioners and Education Teaching Assistants will support children with intimate care as required. Intimate care will be given by substantive staff. However, where an agency member of staff is with the school long term then they will be given training for intimate care by the room leader and then will be permitted to offer this.

No other staff members can be required to provide intimate care.

All staff at the school who carry out intimate care will have been subject to an enhanced Disclosure and Barring Service (DBS) with a barred list check before appointment, as well as other checks on their employment history.

4.2 How staff will be trained

Staff will receive:

- › Training in the specific types of intimate care they undertake
- › Regular safeguarding training
- › If necessary, manual handling training that enables them to remain safe and for the pupil to have as much participation as possible

They will be familiar with:

- › The control measures set out in risk assessments carried out by the school
- › Hygiene and health and safety procedures

They will also be encouraged to seek further advice as needed.

5. Intimate care procedures

5.1 How procedures will happen

As a nursery school we follow the appropriate ratios for the age range. All changing areas are in sight and sound of other adults, where windows are not present then doors are propped open enough to protect the dignity of the child while safeguarding the adult and the child.

Procedures will be carried out in the children's toilet area or one of the changing rooms, (the nest changing room, the 2-year-old changing room or the accessible toilet changing area.

When carrying out procedures, the school will provide staff with:

Aprons, gloves cleaning supplies, changing beds, bins

For pupils needing routine intimate care, the school expects parents/carers to provide necessary resources, such as nappies, underwear and/or a spare set of clothing in their bag which they bring to school daily.

Any soiled clothing will be contained securely, clearly labelled and discreetly returned to parents/carers at the end of the day.

5.2 Concerns about safeguarding

If a member of staff carrying out intimate care has concerns about physical changes in a child's appearance (e.g. marks, bruises, soreness), they will report this using the school's safeguarding procedures.

If a child is hurt accidentally or there is an issue when carrying out the procedure, the staff member will report the incident immediately to the leader of the room e.g. Lindsey Robinson in the 3-4-year old room or Joanne Smithson in the 2-3-year old room. Both of these adults are also DDSLs.

If a child makes an allegation against a member of staff, the responsibility for intimate care of that child will be given to another member of staff as quickly as possible and the allegation will be investigated according to the school's safeguarding procedures.

6. Monitoring arrangements

This policy will be reviewed by Andi Gilroy-Sinclair annually.

7. Links with other policies

This policy links to the following policies and procedures:

- Accessibility plan
- Child protection and safeguarding
- Health and safety
- SEND
- Supporting pupils with medical conditions

Appendix 1: template intimate care plan

PARENTS/CARERS	
Name of child	
Type of intimate care needed	
How often care will be given	
What training staff will be given	
Where care will take place	
What resources and equipment will be used, and who will provide them	
How procedures will differ if taking place on a trip or outing	
Name of senior member of staff responsible for ensuring care is carried out according to the intimate care plan	
Name of parent or carer	
Relationship to child	
Signature of parent or carer	
Date	

This plan will be reviewed twice a year.
